PHOTO AND MEDIA RIGHTS

MEDIA ASSETS

Parents and students may record classes for personal practice only, and agree to be recorded alone or in groups. You may not share, post, or distribute any recording, including on social media, without written consent from NSDA. NSDA is not liable for recordings shared without its approval, or for photos and recordings taken by others at public events.

NSDA may use approved recordings for its own promotion and marketing.

SHOW PHOTOS AND VIDEOS

By enrolling, you agree that your dancer may be photographed and filmed at NSDA shows and events. Starting in 2026, NSDA shares these photos, and later videos, with enrolled students and their families in a private, sign-in area of the NSDA website. Access is given to each approved family and may not be shared with anyone else.

These photos and videos are for personal, family use. You may keep, print, and share them with family and friends. Photos and videos of your own dancer may be posted on your personal social media. Group photos and videos that show other dancers may not be posted publicly without their families' permission. No NSDA photo or video may be sold or used for commercial purposes. NSDA may remove access at any time, including for misuse.

ACKNOWLEDGMENT

By enrolling in NSDA or requesting access to its photo area, the parent or student confirms they have read, understood, and accepted the photo and media rights in this document. These terms are binding upon enrollment.

NSDA may update these terms from time to time. When changes are made, NSDA will notify enrolled families and share the current version.
